

SUNRISE MEDICAL

SYMMETRIKIT POSTURAL CARE

Symmetrikit - **Who are we?**

Symmetrikit are a division of The Helping Hand Company and Sunrise Medical. We have **over 50 years' experience in the Design, Manufacture and Installation of Innovative Lifting Solutions** – *In 1965, one of our Founders designed the very first Patient Lifting Hoist. Today, we offer some of the most advanced lifting solutions and aesthetically pleasing hoisting systems.*

- We offer a **complete Professional Service** to Architects, Designers, Builders, Clinicians and Families to ensure you find the very best lifting solution.

- **Standard & Bespoke systems** for both Special School & Domestic settings.

- We have a **Nationwide Sales and Field Service Engineer Team** to support with all your Moving and Handling needs.

- **An improving Carbon Footprint** - 80% of all parts are sourced within a 20 mile radius of Hereford.

- An **ISO13485 Certificated Company.**

New or **Upgrade?**

SAVE £££££'s

by **upgrading**, rather than buying a whole new system!

Although we would prefer to offer a full design service for new installations, we appreciate that you may now want an upgrade having seen our **new SKYLARK cassette** with a Safe Working Load of **200kg.**

- Maybe you have an old cassette that no longer works but the track is still serviceable?

- We can place one of our SKYLARK cassettes on to almost any Manufacturer's track systems.

Saving YOU time, inconvenience & money

- So why not give your current system a face-lift and **improve the child's experience**

Whatever you choose...

know that our **team of Assessors & Engineers** are **highly experienced** in always meeting the needs of the **individual customer**.

SKYLARK Cassette Options

As well as complex lifting and positioning needs - Symmetrikit wants to **make hoisting more fun**, and more of **a truly sensory experience** for the End User.

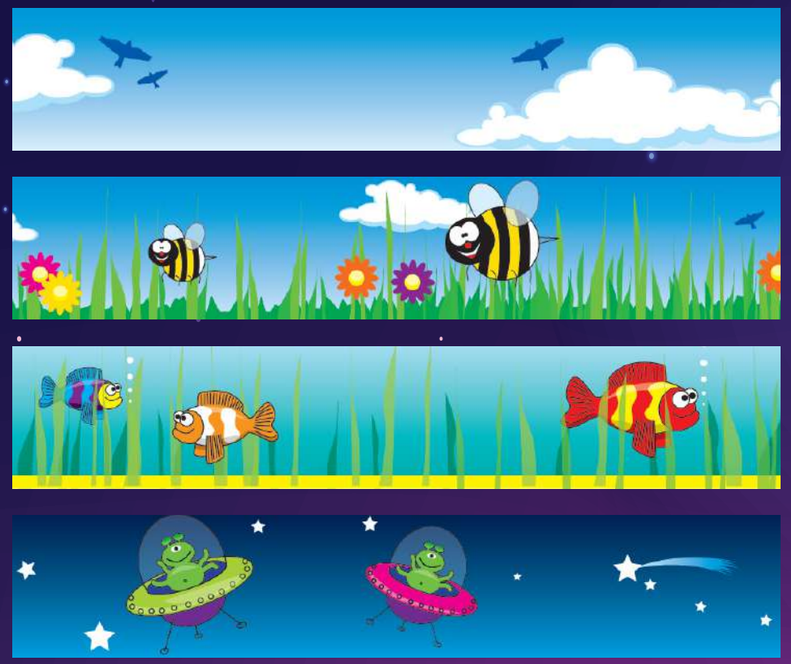

So with this in mind we have created a number of fun SKYLARK cassettes for you to choose from...

- Both the Helicopter and Skyship come with sensory lighting

- Our soft cases offer '**underwater adventures'** with the Fish, or **'flying around the meadow'** with the Bee

- We also offer **Submarine, Dragon, Rocket** or **Airship** illustrated sticker sets

Once you have chosen your new cassette design, why not continue it's theme on to the track with one of the options highlighted below...

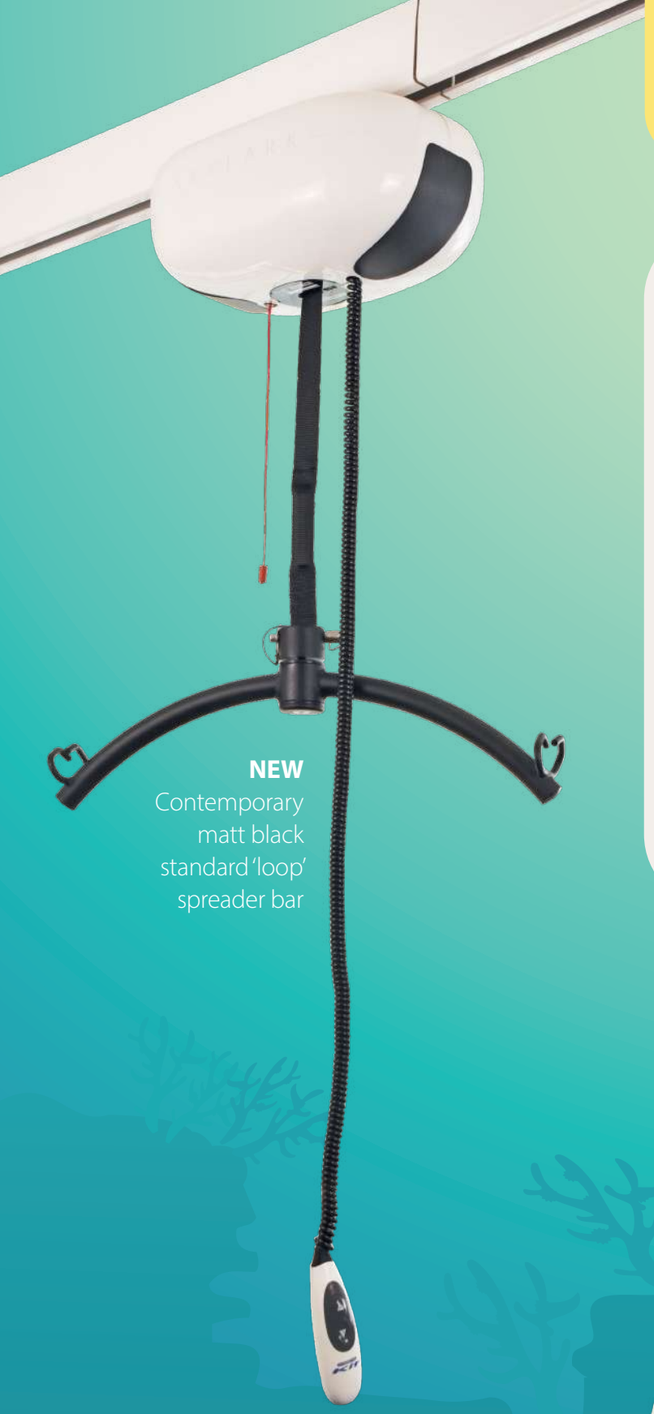

Spreader Bar Options

- **Interchangeable Spreader Bars** allows the Skylark to work with both loop and clip slings.
- Our POSER spreader bar offers our **variable geometry 'easylifting' technology** that allows a Carer to carry out transfers from different equipment with ease whilst the Child is **safe and comfortable.**
- We also offer **Free training** to show you the very best techniques for moving people.

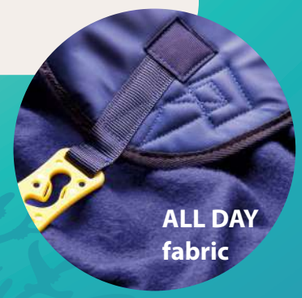

NEW
Contemporary matt black standard 'loop' spreader bar

POSER Variable geometry 'clip' spreader bar

Sling Options

- We can provide **Loop/Clip AND Travla Slings** for all types of Spreader Bar.
- Why not ask us about our **CoolOver TR3 All Day Sling**, the ONLY Sling on the market for in-situ use that offers **Active Temperature Management**, ensuring **Maximum Comfort.**
- Or try our **POSER Slings** that have been designed by our team of experts, engineered to offer the very best in **Safety, Comfort** and **Ease of Transfer.**

ALL DAY fabric

Service

ISO13485 Certification recognition

for high quality and competence in everything we do.

Our **UK-wide Team of Field Service Engineers** (all DBS checked) are fully trained - to not only service our own Products - but also those of other Manufacturers.

- Hoists – Mobile and Fixed

- Changing Tables, Plinths and our very own ACHEEVA®

- Domestic and School Seating

- Standing Frames, Walkers and all types of School Equipment

- Baths, Sinks, Toilets, Showers...

All our servicing is to **LOLER Regulations and MDR Guidelines.**

Case study one

Victoria School - Specialist Arts & College in Birmingham, **upgraded** their hoist system **to** incorporate our new **Skylark** cassette.

They opted for the soft fabric fun design of the Bumble Bee - a fitting choice for their new 'Soft Play' room.

Maybe you have an existing hoist system that would benefit from a bright, **colourful face-lift** or an

upgrade?

Case study two

Our **Expertise** & **Design** Know-how

- We offer a **FREE** Survey and Design Service
- Standard Straight Rail Hoist Systems, or **Complex, Multi-Room** Hoist Systems
- Freestanding, Wall to Wall or Ceiling Fixed Hoist Systems
- Even **Bespoke** Hoist Systems - *as shown on this page*
- We use **upgraded steel gearing** with a **200Kg Safe Working Load** and our British Standard Engineering ensures our lifting systems are made to last!
